Apollo: One Giant Leap for Mankind
Richard Nixon Presidential Library and Museum
1800 Yorba Linda Boulevard
Yorba Linda
<http://www.nixonlibrary.gov>

If you have family and friends in town for the Thanksgiving holiday, you might want to consider a visit to the Richard Nixon Presidential Library and Museum, where in celebration of the 50th anniversary of the historic Apollo 11 moon landing, the Richard Nixon Presidential Library and Museum has opened an all-new interactive special exhibit, Apollo 11: One Giant Leap for Mankind.

The exhibit is now open and runs through January 12, 2020.

On July 20, 1969, the eyes of the world watched as Neil Armstrong and Buzz Aldrin became the first men to walk on the moon. Just minutes after landing they received a call from President Richard Nixon in the Oval Office, with congratulations on behalf of the American people. Three days later, President Nixon personally greeted the three astronauts at the splashdown site in the Pacific Ocean, aboard the U.S.S. Hornet.

Museum-goers take a thrill ride through the Space Race of the 1950s and 1960s, President Kennedy's famous challenge to go to the moon, and the scientific and technological advancements that were developed —many in Southern California— to ensure success and survival on this inspirational mission.

The exhibit's originally-created, 360-degree virtual reality experience transports visitors to the lunar surface on July 20, 1969, to see and hear Neil Armstrong's "one giant leap for mankind."

"Through Positive Eyes"

Fowler Museum at UCLA

Fowler.ucla.edu/visit

"Through Positive Eyes" is a large-scale photography and storytelling project created in collaboration with more than 130 people living with HIV/AIDS.

The exhibition includes photography and video by artist-activists from 10 cities across the globe and a sculpture installation by Los Angeles-based multimedia artist Alison Saar. Combined, these works conjure a broad picture of the epidemic—ranging from everyday imagery to more abstract meditations on joy, grief, solitude, and resilience. Public programs will incorporate live storytelling in the gallery performed twice weekly by seven HIV-positive Angelenos known as the Los Angeles Through Positive Eyes Collective. This

multitude of perspectives and voices coalesce around one core tenet: a belief that challenging stigma against people living with HIV/AIDS is the most effective method for combating the epidemic. The exhibition is cocurated by David Gere, UCLA Professor of World Arts and Cultures, who, with photographer Gideon Mendel, co-founded Through Positive Eyes in 2007.

Shirin Neshat I Will Greet The Sun Again
The Broad
221 South Grand Avenue
Los Angeles
<http://www.thebroad.org>

Originated by The Broad, Shirin Neshat: I Will Greet the Sun Again is the largest exhibition to date of internationally acclaimed artist Shirin Neshat’s approximately 30-year career. Taking its title from a poem by Iranian poet Forugh Farrokhzad, the exhibition (which presents approximately 230 photographs and eight video works) offers a rare glimpse into the evolution of Neshat’s artistic journey as she explores topics of exile, displacement, and identity with beauty, dynamic formal invention, and poetic grace. Beginning with her early photograph series, Women of Allah, the exhibition also features iconic video works such as Rapture, Turbulent, and Passage, monumental photography installations including The Book of Kings and The Home of My Eyes, and Land of Dreams, a new, ambitious work encompassing a body of photographs and two immersive videos that will make its global debut in the exhibition.

Ford v. Ferrari

The 5 Classic Cars That Inspired the Movie

Petersen Automotive Museum

6060 Wilshire Boulevard

Los Angeles
petersen.org

While we're on the subject of speed, have you heard about the new 20th Century Fox movie FORD VERSUS FERRARI?

The movie is based on the true story of the 1996 24 Hours of Le Mans race and the American racing team hired by Ford Motor Company to defeat Ferrari. The Italian racing car company had won the race for six consecutive years. That was until automotive entrepreneur Carroll Shelby and his British driver Ken Miles teamwork brought a thrilling 1-2-3 sweep for Ford in 1966. Well, we can see the five Ford and Ferrari vehicles that played a crucial role in the racing rivalry at the Petersen Automotive Museum. The award winning gallery is open from 10am to 6pm on the weekends. For ticket information, take a look at the website - petersen.org.
